Carved Mahogany-finish Parlor Suite, with five pieces; roll arms, French legs, full spring edge, button-tufted back, and upholstered in fancy figured damask.

## BRYAN AND MARYLAND

Conditions Looking Up a Bit for Nebraskan.

SOME "BIG UNS" FOR HIM

Republicans Said to Be Overconfident of State.

WARFIELD ON BANKING LAWS

Former Governor Does Not Believe

Uncle Sam Should Go Into the Guaranty Business.

Special Correspondence of The Star.

BALTIMORE, Md., September 19, 1908. Bryan is gaining ground in Maryland. This statement may appear strange, in view of the fact that the state has been placed safely in the republican column in previous letters to The Star, but it is a fact, nevertheless. And this recent trend toward Bryan is not due to the candidate's presence in the city last Monday, but to the fact that many have come to believe that the Nebraskan is being persecuted by the democratic newspapers of this city and state.

The classes are solid for Taft, but the masses are flocking to the Nebraskan, and unless there is some unforeseen development the eve of election will find Maryland again in the doubtful column. That Chairman Hitchcock has received an inkling of conditions in Maryland was made evident when he summoned the state leaders to New York for a conference. Following close upon the announcement in New York came the announcement that Candidate Taft and former Secretary of the Treasury Shaw would take the stump in this state and would speak in Baltimore the latter part of October.

Early next week there will be a conference between Republican State Chairman Farran and Attorney General Bonaparte, at which a speaking tour, to embrace the large cities of the state, will be mapped out for the cabinet officer.

Republicans Overconfident.

The trouble with the republicans is that they have all along been too confident of carrying the state, some of the leaders claiming as high as 25,000 majority for Taft and Sherman. The campaign for the national ticket is not yet under way on the part of the republicans, and probably will not be until the end of the month. The democrats, on the other hand, are busy all over the state organizing campaign clubs and holding meetings in the interest of Bryan and Kern and the congressional candidates. The alacrity with which the regular machine democrats jumped into the Bryan band wagon during the week has aroused much comment, and many observers of political events have been wondering what caused the sudden change of heart on the part of the "regular" leaders.

Men like Gov. Crothers, Murray Vandiver, Fred Talbot, Frank Brown, John J. Mahon have made a flying leap into the limelight in advocacy of Bryan's election, and are really at work in the Nebraskan's interest. Politicians of this stripe are famous for keeping their ears close to the ground, and it has been the proud boast of a number of them that they are "always with a winner—never with a loser."

Warfield Springs Surprise.

Perhaps the biggest surprise of the week came in the form of a statement from former Gov. Warfield, in which he scored Bryan's advocacy of the government guaranty of bank deposits. Mr. Warfield was one of the few big leaders who espoused the cause of Bryan in his two previous campaigns.

In discussing the guaranty plan today Gov. Warfield said to The Star correspondent: "The guaranty of bank deposits by the government smacks too much of paternalism. My democracy teaches me to believe that the less government we have the better government will we have. That is, I do not believe in the government assuming duties and functions which are private and individual. The guaranty of bank deposits by the government is not democratic in principle. Such activity is within the province of private enterprise, just as it should be left to private enterprise to insure lives, houses, property, etc. There is already in this country a large amount of capital engaged in the insurance of bank deposits. The companies with which I am connected, both state and individual, as well as trust funds.

Banks Are Safe.

"As a matter of fact," continued Mr. Warfield, "the banks of our country today are safe and reliable. There may still be some wildcat institutions in the west, but for the most part our financial institutions warrant the confidence of the people. Instead of governmental guaranty of deposits, which would result in weakening our banking system, what is needed is better state regulation, such as New York has. When I was governor I recommended the creation of a state banking department, at the head of which should be a superintendent, selected for his merits by the legislature, and not a political appointee, who should have adequate supervisory powers. That is what is needed not only in Maryland, but in all states. "The government should keep out of the banking business," he concluded. "I am accordingly opposed to its assuming a function which does not belong to it, and encroaching upon a field of activity which is already well covered by private enterprise. But I am a democrat, and shall vote for Bryan."

Tuberculosis Congress.

Maryland will take an active part in the proceedings of the international tuberculosis congress, which will open in Washington next week. Among the prominent professional men who will deliver addresses during the congress are Prof. William H. Welch of Johns Hopkins University, Dr. Henry Barton Jacobs and Dr. L. F. Barker, also of the Hopkins. The national day mass meeting will be held Sunday, September 27, in the New National Museum, will be presided over by John M. Deponal, president of the United Fraternity Associations of Maryland, and the Baltimore speakers will be Grand Chancellor Olive Bryan of the Knights of Pythias and Dr. Bernard P. Muse of the Improved Order of Heptasophis. Mr. Deponal will be accompanied by a large delegation of fraternal leaders, who will go to Washington on a special car of the Washington, Baltimore and Annapolis electric railway.

FROG HAD CRYSTAL PALACE.

Hops About After Being Sealed Up Two Years in an Ice Cake.

MIDDLETOWN, N. Y., September 19.—An employee of an ice company here was delivering a cake of ice to a customer in Orchard street when he discovered a frog in the center of the cake. The ice was melted and the frog taken out. After it had been exposed to the sun for about ten minutes the frog commenced to hop about, apparently none the worse for its ice imprisonment. It is a remarkable fact that the ice from which the frog was taken had been in storage for two years. The frog was exhibited about the city for some time.

J. T. Coldwell Company, No. 7, Uniform Bank, Knights of Pythias, held its semi-monthly drill at its armory, in Pythian Temple, Thursday evening. There was a large attendance. Capt. Schondau, commanding the company, has called an assembly of the company for next Tuesday evening at 7:30 o'clock, when the company will pay a fraternal visit to Decatur Lodge, No. 9, in full uniform.
